

CAPABILITY STATEMENT

BENTINO

Whatever it takes

Bentino are your highest standard in strata and body corporate needs. We understand that this market is unique.

That's why we employ experts with deep knowledge of the industry regulations, ensuring compliance with local laws and Australian Standards. We offer a suite of tailored and specialised maintenance solutions, including multi-residential buildings and shared facilities. Bentino are NSW's go-to builder for this type of unique property management.

IT & AI TECHNOLOGIES

Bentino use cutting-edge tools to analyse real-time data from various sources (e.g social media, sensors, satellite imagery) to quickly assess the situation and make informed decisions when it matters.

Bentino leverage cutting-edge technology to streamline disaster recovery processes. Through advanced data analytics, artificial intelligence for predictive modelling, and drone technology for damage assessment, rest assured Bentino are doing whatever it takes.

A customised approach to repair solutions specifically designed for commercial properties, including offices, retail spaces, and industrial facilities.

Our strategic scheduling assists to perform repairs during off-hours or weekends, thereby minimizing disruption to business activities and reducing operational downtime. Our ability to quickly mobilize resources and deploy repair teams ensures that urgent issues are addressed promptly, mitigating potential impacts on business operations.

SECURITY & GOVERNANCE

Building of today is far more focused on governance and information security and so is Bentino. We understand the importance of ISO accreditation and how this is vital in securing our clients information and delivering the assurance that we have become known for.

We have a variety of relevant ISO accreditation, but more importantly we have the internal checks and balances that ensures our customers are updated every 7 days and our ISO accreditations just aren't numbers, but a way of doing business.

EMERGENCY RESPONSE

Whatever it takes, 24 hours a day 7 days a week, Bentino are ready to respond. Bentino have a rapid deployment and resource mobilisation plan. We have pre-positioned assets, having resources, personnel, and equipment pre-positioned in strategic locations can lead to quicker deployment when emergencies arise.

We are now a 2-state solution. Opening of our QLD division in 2024 was a huge milestone of the company, allowing us to cross divide our emergency response resourcing of staff, equipment and trades. With efficient logistics and supply chain management to ensure that necessary supplies and equipment are delivered promptly to affected areas when they are needed most. We are a dedicated 2 state solution with current building licences throughout every state and territory in Australia for when that time comes, and our clients need repairs done fast, Bentino are ready to go at moment's notice, delivering the same customer focused specialised service that our QLD and NSW customers have grown to know and expect.

DISASTER RECOVERY & RE-CONSTRUCTION

Our dedicated teams have been at the epicentre of natural peril in NSW for over a decade. Our empathetic and technical approach to rectification building is what sets us apart.

We listen to our customers, through some of the most difficult times of their lives. Building them back to a better position, hand in hand. With comprehensive planning Bentino offer a more holistic approach to disaster recovery, incorporating not just immediate response but also long-term rebuilding and resilience planning. This involves a focus on sustainable practices and future-proofing homes and in-turn communities against future damage. From initial response through to assessing and detailed quotation facility including emergency response and restorations, Bentino are your customer focused solution delivering success every time.

It's a home, not just a worksite

Two State Solution & licenced for all

Bentino are your 2-state solution for all your residential and commercial building needs. We don't claim to be everywhere for everyone. We focus on our core areas and deliver outstanding customer service and results for those state solutions.

But we also understand that disaster happens throughout the entire country, that's why Bentino are licenced for building works in every state and territory throughout Australia. For when our clients need help, we're there to lend a hand when it matters. Whether its just reporting assistance or emergency response or end to end building solutions, we will do whatever it takes to ensure our partnership is life long, not just for a season.
